

PURESWIM®
THE HEALTHY WAY TO SWIM

SUPERIOR 3- IN-1 SANITISATION

HydraPure®

Sanitisation System

Hydrapure's advanced oxidisation process combines the germ-killing properties of UV with the shock power of ozone to form hydroxyl radicals that destroy chlorine-resistant microorganisms.

HydraPure® Sanitisation System

INDUSTRY BEST
SANITISATION

- Incomparable Water Quality. HydraPure not only provides an added layer of sanitization - it reduces irritating chloramines for softer, gentler water too.
- 99.9% sanitisation at up to 360 LPM flow rate.
- Pool size up to 270,000 litres.
- Less Chlorine Maintenance. UV and ozone protection reduces the amount of traditional or salt chlorine required for effective sanitisation
- Fits In Easily - Anywhere. Hydrapure's all-in-one design is easy to install, even in tight spaces.

WHY CHOOSE ADVANCED OXIDATION

	Chemical Residual	Disinfection	Oxidation	Reduces Chloramines
Chlorine	✓	✓	✓	
UV		✓		✓
Ozone		✓	✓	✓
Advanced Oxidation		✓	✓	✓

Minimum Chlorine levels per pool size will be available upon completion of challenge test.
